## NT6500

## Push Technology Clock

### NT6500 – A Time Clock and Kiosk Station

NT6500 is a time clock with modern appeal. It serves as a fully functional KIOSK station to increase convenience for your employees. NT6500 is an ideal standalone workforce management self-service solution!

- ▶ **No PC? No problem.** NT6500 offer self-service functions to employees with no access to desktop computers, or for those who are not located near an HR office.
- ▶ **Easy-to-use time and attendance features, allowing you to**
  - ▶ Punch in and out - using barcode, proximity, magnetic stripe, or key-in using employee ID, SS number, or badge number.
  - ▶ Transfer multi-level jobs to support job costing needs.
  - ▶ Let employees input sick leave hours, vacation hours, personal leave time, etc.
  - ▶ Supports input of tips, bonus dollars, etc.
  - ▶ Support employee schedule lockout.
- ▶ **An extension of your HR department that will support after-hours inquiries, allow you to**
  - ▶ Have 24/7 operations without a 24/7 Human Resource personnel.
  - ▶ Access in real time your employees' accrual information of vacation hours, sick leave, personal leave time, etc.
- ▶ **Amazing kiosk features and functions like:**
  - ▶ Real time access of employee timesheet.
  - ▶ Real time access of employee work schedules.
  - ▶ Real time access of employees' performance tracking data (point system).
  - ▶ Private messages to your employees.
- ▶ **Greater employee satisfaction—with information at their fingertips!**

### Push Technology: No More Data Collection!

Still running the traditional "data collection" process? Try NT6500, offering...

- ▶ **Innovated Push Technology:** NT6500 pushes punch data automatically from your time clocks to the server based on a preconfigured schedule—whether immediately or periodically, centrally controlled in NOVAtime.
- ▶ **Seamless communication between NT6500 and the NOVAtime server,** using NOVAtime Enterprise Web Services (N.E.W.S.) with built in authentication.
- ▶ **Self-maintenance with bi-directional data synchronization** between clocks and the NOVAtime server, based on preconfigured schedule, controlled centrally in NOVAtime.
- ▶ **Easy deployment:** All you need is an Internet connection (via HTTP port 80 access). With a **built-in Ethernet connection**, just hang the clock and plug into the network!
- ▶ **Easy support and maintenance:** NOVAtime centrally controls all clock configurations, push settings, function keys, and synchronization settings.
- ▶ **Friendly touch-screen kiosk** that is easy to use and work with!

# NT6500

## Specifications

### Performance Characteristics

OS	Windows CE.NET 5.0
CPU	PXA270 – 520MHz
RAM	128MB
FlashROM	64MB

### Proximity Card Input

EM	125 KHz
HID	125 K

### Magnetic Stripe Input

Triple track MSR reader

### Bar Code Input

China Postal Code, Codabar, Code 11, Code 32, Code 39, Code 93, Code 128, Delta Code, Interleaved 2 of 5, ISBT 128, Label Code IV, Label Code V, MSI, Standard 2 of 5, Toshiba Code, UPC/EAN

### Keyboard

6 hard keys

### Display

5.6" TFT – LCD QGA (240x320) color

### On and I/O

Digital inputs	4
Output relays	4
Audio speaker	0.8W
Ethernet	
Connection	RJ45 powered over Ethernet (POE)

### Power Management

Power Input	12 VDC
UPS	One rechargeable Lithium-ion battery pack 3.8V, 4000 mAh
UPS Operating Time	2 hours operation or 3 days data backup

### Physical and Environmental

Temperature	Operation: 32°F to 122°F (0°C to 50°C) Storage: -4°F to 158°F (-20°C to 70°C)
Humidity	5% to 95% RH non-condensing

## Main Features

- ▶ Powered by Windows CE.NET 5.0 operating system
- ▶ 5.6" TFT color QVGA 240x320 resolution touch screen
- ▶ 3 relay outputs and 4 TTL digital inputs
- ▶ External SD slot
- ▶ Built-in UPS battery for 2 hours operation or 3 days data backup
- ▶ POE (Power Over Ethernet) as option
