**NOVAtime**  
FEEL THE POWER

Small Business Edition

***Get a grip on your labor costs....  
Without emptying your wallet!***

If you are still using mechanical time clocks, manually filling out time sheets, or even have an outdated system, Compu-Time has a fantastic solution for you, at a price any size business can **Afford**.

*No more hassles with time cards. No more mistakes.*

NOVAtime has developed an **Easy to Use** automated solution for calculating employee punches. Employees simply swipe their badge through our electronic time terminal. NOVAtime's powerful software program collects the punch information, applies your company's totaling rules, and generates timely management reports with just a few key strokes. NOVAtime even provides standard interfaces to most of the popular payroll programs and service companies.

It is widely known in the payroll industry, that using an automated time system will reduce 80% of the time collecting and calculating employee labor data, and reduce your total labor costs by between 1% to 4%.
